Personal Objectives

I seek a position of high responsibility, where I can learn and apply at large a portion of my knowledge and experience as possible.

I have been working intensively with the Oracle and Microsoft Development platform, and would enjoy continuing to work in this field.

Summary

I am a team oriented person with excellent analytical communication and organizational skills. Ability to rapidly accommodate various concepts allows me to add value, creative to teams and concepts within short time frames to achieve success. I enjoy working as part of a team and have had to work independently when the need arises and under difficult circumstances. I am a quick learner, friendly, easily adaptable and flexible to suit varying demands.

I have over 6 years' experience in the analysis, design and development of custom enterprise applications using Oracle and Microsoft Development Tools in Windows and Unix Environments.

I possess an In-depth knowledge using .Net, SQL and PL/SQL and also possess good experience working with Oracle E-Business Suite Applications particularly Oracle HRMS Module.

I possess strong analytical and problem-solving skills.

I have worked on several modules of Oracle E-Business Suites as an Application Techno-Functional, Application Developer and Support Specialist. Additionally, I have also given Best Practice training on Application and ERP generally.

Technical Competencies

ERP: Oracle R11/R12

Development Technologies: Microsoft .Net, SQL, PL/SQL, Oracle Application Express (4.0 and 5.1), Oracle Forms(6i,9i and 10g), Oracle (XML) BI Publisher, Oracle Discoverer, Oracle Reports(9i, 10g and 11g).

Database Vendors: Oracle 9i, 10g and 11g, 12c, MySQL and Microsoft SQL Server

Operating Systems: Windows and Unix Platforms

ERP Application: Oracle E-Business Suite R11i and R12, Application Object Library (AOL/FND), Concurrent Manager (CM), Flexfields.

Tools: SQL*Plus, TOAD, SQL Developer, PL/SQL Developer, SQL Navigator, XManager Enterprise 3 and Shell Scripts

Work Experience

2011- **Assistant Chief Program/Analyst, Lagos State Ministry of Science & Technology**

Responsibilities: Techno-functional support on Oracle E-Business Suite

Duties and Projects delivered-

- Support on Oracle E-Business Suite 11i
- Technical support with the HRMS team on Human Resources and Payroll Modules.
- Did proper data cleansing on all Modules being used in 11i in preparation for migration to R12
- Developed some HR/Payroll Reports using Oracle BI Tool (XML Publisher & Discoverer)
- I was part of the Business Intelligence Discoverer team designing different HR/Payroll, AR, AP, GL and discoverer reports
- Perform and automate various support services to meet the needs of HR/Payroll users, Public Service Office, Central Payroll Processing Unit, Establishment and Pensions Office and other concerned clients in the Lagos State Civil Service. All the scripts written were made in safe and standard manner using Application Program Interfaces (API) as recommended by Oracle.
- Design/develop several database views in HR/Payroll, to report salary/employee details to the Management.
- Writes Oracle Procedures and Functions based on Oracle standard.
- Developed Payroll Fast Formula for Oracle Payroll
- Developed PL/SQL/API scripts to migrate employees personal contacts and address details
- Developed Application Program Interface (API) Scripts to migrate assignment, grade/step, bank details information and all other additional details.
- Registered Procedures and Packages as Concurrent Program for use by end-users.
- I support all other non ERP Applications LASG uses for its Exploration, Management and Audits etc.

Projects:

- Development of custom application for random generation of trainee
- Development of job portal (Using .Net and MVC technology)
- Customized application to auto generate employee promotion letter with digital signed signature
